Block 4, Lot 22, Casili, Consolacion, Cebu

PROFESSIONAL SUMMARY

AI Automation Specialist with over three years of experience in customer service, CRM management, and administrative support, combined with hands-on expertise in GoHighLevel (GHL), workflow automation, and AI-powered business systems. Skilled in designing CRM pipelines, sales funnels, workflow automations, appointment booking systems, lead nurturing campaigns, and customer communication processes through portfolio-based implementation projects. Passionate about leveraging AI, automation, and CRM technology to streamline operations, improve customer engagement, eliminate repetitive tasks, and help businesses scale efficiently. Fast learner with strong analytical thinking, problem-solving abilities, and a systems-oriented mindset.

PROFESSIONAL EXPERIENCE

Customer Service Representative (2022 - 2025)

- Delivered exceptional customer support through phone, chat, and email while maintaining 95–100% Customer Satisfaction (CSAT) and 95–100% Quality Assurance (QA) scores.
- Managed 50–100 inbound calls, 30–50 live chat conversations, and 10–20 email inquiries daily while maintaining accuracy and professionalism in high-volume environments.
- Resolved customer concerns efficiently, achieving a 95–98% First Call Resolution (FCR) rate while maintaining an Average Handle Time (AHT) of under six minutes.
- Maintained accurate customer records, documented interactions, and managed case resolutions using CRM platforms including Salesforce and Zendesk.
- Collaborated with internal departments to investigate complex customer concerns and ensure timely issue resolution.
- Consistently achieved 100% monthly attendance while meeting company service level agreements (SLAs), quality standards, and performance metrics.
- Assisted customers with account management, billing inquiries, technical troubleshooting, and service-related concerns while maintaining a positive customer experience.

Data Encoder (2025 - 2026)

- Entered and maintained customer and business records with 95–100% accuracy while ensuring data integrity and consistency.
- Organized digital files, maintained spreadsheets, and managed business documentation using Google Sheets and Microsoft Office.
- Assisted with appointment scheduling, calendar management, and administrative support to improve daily operational efficiency.
- Verified data accuracy before submission, reducing errors and maintaining organized business records.

PORTFOLIO PROJECTS

Dental Practice CRM & AI Automation System

Portfolio Project

- Designed and configured an end-to-end GoHighLevel CRM system for a simulated dental practice.
- Built multi-stage sales pipelines, opportunities, Smart Lists, and lead segmentation workflows.
- Created automated appointment booking, reminders, missed appointment follow-ups, and lead nurturing sequences.
- Developed email and SMS marketing automations to improve customer engagement.
- Configured AI-assisted customer communication workflows to reduce manual administrative work.
- Designed landing pages, lead capture forms, and surveys to improve lead conversion.
- Integrated Zapier workflows to automate notifications and CRM updates.

Technologies: GoHighLevel • Zapier • ChatGPT • Claude • Google Workspace

AI Workflow Automation Portfolio

Portfolio Project

- Designed workflow automations that connected CRM processes with third-party applications using Zapier.
- Automated lead management, customer follow-ups, task creation, and notification systems.
- Built AI-assisted operational workflows to improve productivity and reduce repetitive manual processes.
- Created workflow documentation and process diagrams demonstrating automation logic and business process optimization.

Technologies: Zapier • GoHighLevel • ChatGPT • Claude

CRM & Funnel Management Project

Portfolio Project

- Developed complete customer acquisition funnels including landing pages, forms, surveys, workflows, and automated follow-up campaigns.
- Configured pipelines, opportunities, Smart Lists, and customer communication workflows.
- Built automated lead routing systems using custom values and workflow logic.
- Optimized CRM organization to improve lead tracking and customer lifecycle management.

Technologies: GoHighLevel • Zapier • Google Sheets
